** Extension works only on Dhan's Tradingview. Please do a page refresh of https://tv.dhan.co to get updated config's on order window **

All set now:
1. With all your base configurations, go to Dhan's tradingview platform (https://tv.dhan.co)
2. Start with trading 🙂

All Feature Demo videos are available at:
1. Youtube

Annexure:

1. 1Cliq Order Placement Shortcut
    a. BUY (Ctrl + B)
    b. SELL (Ctrl + S)

Ref: Click on any chart & press the shortcut, the order will be triggered for the last selected stock only, It does not matter if you are in multi layout chart, System will always place an order for the last selected scrip.

2. 1Cliq Order Placement on 2 Layout chart
    a. Scrip 1:
        i.   BUY (Shift + Left Arrow)
        ii. SELL (Shift + Up Arrow)
    b. Scrip 2:
        i.   BUY (Shift + Right Arrow)
        ii. SELL (Shift + Down Arrow)

Ref: Click the shortcut, the order will be triggered, only for the 2 layout scrips based on key event. If you are not in 2 Layout chart, this shortcut will not trigger any order & alerts you with an error message.
